

We believe that Health, Safety and Protection of Environment is above all Project Schedule and Targets. We are therefore committed to protect and safeguard our employee , equipment and the environment against effects arising from our business.

The Objectives of **HSE Policy** shall be achieved at our Project Business by :

- Implementing & maintaining an effective HSE management System.
- Adopting all rules, regulations as well as legislative requirements to provide and maintain safe and pollution free working environment.
- Preventing injury and occupational related issues to personnel associated with our Organization.
- Employing Contractors who aspire to adopt the same HSE Standards in their works.
- Mitigating environmental pollutions, health and safety hazards with adequate training and providing necessary facilities to all employees.
- Reviewing all objectives & targets periodically on HSE Management System for continual improvement.

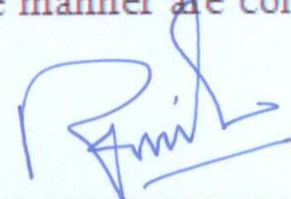

Senior Management shall visibly uphold the principles of this policies and integrate them throughout the company. The Management and Supervisory personnel shall be responsible for implementing and maintaining the HSE Management System necessary to sustain this policy.

Engineering Design, Plant & Machinery, Human Resources, Tendering, Material Procurement and other service units of the company shall support the operation of this management policy.

Working safely and in an environmentally appropriate manner are conditions of employment in ITIHADI INFRA...
